

Measuring and laying guide for 5.76 square metre pattern

To measure and estimate the number of paving stones for your area, measure and then multiply the length by the width, this will give you the square metres of paving required.

Then divide this number by 5.76 and then multiply this figure by the number of paving stones for the laying pattern below. This will give you an approximate amount of paving stones needed for your area.

(Where the area does not divide equally, simply add individual paving stones to complete the area).

8581YG/8581AN Abbey Paving Patio Pack

Covers approximately 5.76 square metres

Abbey Paving Random Patio Pack Contains	A 300mm x 300mm x 8
	B 300mm x 450mm x 6
	C 450mm x 450mm x 8
	D 450mm x 600mm x 7
	E 600mm x 600mm x 2

This laying pattern is a guide only.
